DETAILED ACTION

1. Acknowledgment is made in the receipt of the amendment filed January 12, 2007. The amendment has been approved for entry.

Allowable Subject Matter

2. Claims 1, 3, 4 and 7-17 are allowed.

3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to anticipate or render obvious a damper wherein, two parts of the balancing chamber are respectively linked by pipes, on the one hand to the inlet of the valve, itself linked to the first chamber of the cylinder and on the other hand to the outlet of the valve, itself linked to the second chamber of the cylinder and to the reservoir, and the filtering means further comprises a filtering restriction mounted in the pipe linking one of the parts of the balancing chamber to the valve; a filtering pipe also linking said part of the balancing chamber to the valve in order to apply the filtering control pressure prevailing in the part of the balancing chamber to the movable valve element of the valve; or a damper wherein, the valve comprises a control chamber linked at the inlet, adjacent the seat of the movable valve element, to the first chamber of the cylinder, linked at the outlet to the second chamber of the cylinder and, the movable valve element comprises a valve element head capable of cooperating with the seat, a valve element stem and a valve element piston integral with the stem at the opposite end from the valve element head, and a regulation cylinder is housed inside the control chamber and defines a closed first regulation chamber, inside which the valve element piston slides, said regulation chamber receiving the filtering pressure.
